Call 850-983-5216 ext. 100 for more information

Tri-State Horticulture Short Course

What you can expect from this three tracks, full day program:

For the commercial nursery and landscape professionals:

- Pesticide updates, weed control in nursery crops, new production techniques, worker safety issues, and new options in trees, shrubs, flowers and turfgrass for the gulf states and South Georgia landscapes.

For the greenhouse industry:

- Pesticide updates, potting media and alternatives, identifying plant diseases and insect pests, using plant growth regulators and fertilizers, greenhouse worker safety, and growing techniques for heat-tolerant annual plants.

For the consumer:

- Soils of the Coastal Plains and garden tillage, fertilizers, waterwise landscaping, butterfly and drought tolerant plants for the Southeast, learning to identify insect pests, new plants you ought to try, and how to control weeds in your lawn.
